EASY HOMEMADE SMARTIES CAKE

INGREDIENTS

- 150g of self-raising flour
- 50g of cocoa
- 200g of caster sugar
- 80g butter
- 125ml of milk
- 2 eggs

FOR A QUICK CHOCOLATE ICING:

- 250g 75-80% dark chocolate
- 1 tablespoon of dark muscovado sugar
- 1 generous tablespoon of golden syrup
- 125g unsalted butter
- Cake decorations

METHOD

1. Preheat the oven to approximately 180 degrees.
2. Grease a cake tin with butter, or let your kids do this job - it's messy and fun.
3. Manually mix all the ingredients in a bowl – it's more fun doing it by hand and watching the ingredients form a delicious mixture.
4. Pour the mixture into a cake tin and place it in the oven. Let it bake for 40 minutes.
5. Let the cake cool before you start to decorate it. You could use a tub of ready-to-use icing, or you can make your own chocolate glaze. How to make the glaze: melt the butter, syrup and sugar in a pan before slowly adding the chopped up chocolate, stirring until it all melts together. Pour onto the cake warm, but not hot.
6. Decorate with smarties! Kids love this part.
